

Selcuk Senturk

Istanbul, Turkey • selcuksntrk@gmail.com • +90 542 743 52 94 • [LinkedIn](#) • [GitHub](#)

Education

Ege University

Master of Science, Computer Science

Izmir Institute of Technology

Bachelor of Science, Physics

Istanbul, Turkey

Present

Izmir, Turkey

2023

Experience

IBM

AI/ML Engineer

Istanbul, Turkey

Oct 2025 – Present

- Working on AI applications and multi-agent systems using Watson Orchestrate for intelligent agent orchestration and Watsonx.ai for custom LLM development, hyperparameter optimization and fine-tuning
- Delivering ML solutions from model training and optimization to production deployment

Kastas Sealing Tech.

AI Specialist

Izmir, Turkey

Feb 2025 – Oct 2025

- Designed and deployed multi-agent AI systems using PydanticAI and LangGraph frameworks, transforming complex business workflows into automated intelligent processes, improving efficiency by 2000+ hours annually
- Built custom AI automation solutions on Microsoft Azure AI Foundry with GPT-4.1-mini, Power Automate, and Copilot custom agents for optimal performance/cost ratio and seamless enterprise integration

Siskon Software

Data Scientist

Izmir, Turkey

Apr 2024 – Oct 2024

- Engineered real-time computer vision system achieving 40% performance improvement using DeepFace for detection and SVM classifier for face recognition, processing 2K camera streams with PyTorch optimization
- Deployed end-to-end data analytics solutions using Python, SQL, Scikit-Learn, and visualization libraries (Matplotlib, Plotly, Seaborn) for real-time process monitoring and predictive maintenance

KPMG Turkey

Data Scientist

Istanbul, Turkey

Jun 2023 – Apr 2024

- Developed production-grade RAG systems with local LLMs (Llama2, Mistral-7B) ensuring enterprise data privacy, using FAISS vector database and Transformers for semantic document search ensuring DAMA-DMBOK data governance compliance

Skills

Languages: English (Professional Working), Turkish (Native)

Technical: Machine Learning, Deep Learning, PyTorch, TensorFlow, Pydantic AI, Transformers, Scikit-Learn, Pandas, NumPy, LangChain, LangGraph, Azure, IBM Cloud, Docker, Git, Power Automate, Watson X, FAISS, Python, SQL

Certifications: Microsoft Certified: Azure Data Scientist Associate, IBM AI Engineering Professional Certificate
